

Hope & Action, by Bill and Lynette Hybels

Length: 2 weeks (one hour or less)

Includes: DVD and student guide

The statistics are staggering. In twenty-five years, 30 million people have died of AIDS, and 14 million children have been orphaned. What can possibly be done in the face of such devastation? In two, 1-hour sessions, we view brief DVD segments that will inform, encourage and challenge us. Through discussion, we open our minds and hearts to change. And in the Participant's Guide, we mark down the first steps we can take to make a difference in the HIV/AIDS crisis in Africa.
